

### SPECIFICATIONS

CCD resolution		510x492
CCD sensitivity	(lux)	0.001
IR LED power	(mW)	500
IR LED range	(m)	70
Maximum visible range (clear night, quarter moon)	(m)	150
Display		Kopin 0.16" B/W
Zoom power	(actual, x)	1.07
View angle	(degrees)	14
Working current without / with IR	(ma)	250 / 400
Working voltage	(V)	6
Power consumption without / with IR	(W)	1.5 / 2.58
Working time without / with IR (2000mAh battery, hr)		8 / 4.5
Dimensions	(in)	6.25x2x3.25
Weight	(oz)	14.2

## WRAITH DVS-14T™

The Sightmark **Wraith DVS-14T™ Digital NV** monocular is the spectral embodiment of the newest in night vision technology and design. With black-on-white digital imaging rapidly overtaking and surpassing its green-on-green predecessors, the Wraith is a perfect example of the capabilities inherent in this new, breakthrough technology. The Wraith is the equivalent to Gen 2+ capabilities without the weighty price tag, has incredible edge-to-edge resolution and a crisp, clear image that is difficult to achieve with traditional night vision. Thanks to the innovativeness of digital technology, the most amazing ability the Wraith possesses is that the unit can be used for both daytime and nighttime operation without damage to the internal components of the device. In that, it is uniquely versatile but also boasts an array of features including an adjustable screen brightness control, built-in IR illuminator to further increase viewing power, multicoated lenses and a 1/4" camera socket adapter, to name a few. The Wraith DVS-14T is also backed by Sightmark's exclusive Limited Lifetime Warranty.

### INCLUDED ACCESSORIES

- Carrying case
- Lens covers
- Limited Lifetime Warranty

### FEATURES

- Multicoated lenses
- Built-in IR illuminator
- IR On / Off button
- Equivalent to Gen 2 night vision
- Adjustable brightness control
- Rubber gripping surface
- 1/4" camera socket adapter
- Compact
- Lightweight
- Operates using (4) AA batteries
